British, Continental, and General Federation,
348, Park Road,
Liverpool.

10 Feb. 1879

25-

Dear Sir,

I received your reply to my first letter to you; & Mrs Butler this morning received yours of the 2nd inst., and has instructed me to answer it.

Her general health seems now restored, & she has been able to attend, & speak, at two large Meetings in York & Newcastle, without being harmed. The weather at the time being very severe & cold.

Her eyesight however is

anything but satisfactory

I am desired Sir to ask permission to place your name (with several others distinguished Continental names) at the foot of an address, now in preparation, to the Mayors of France, couched in terms of Liberty & Morality, urging them to exercise a power - which is in their hands - to abolish "legalized" prostitution in their Municipalities.

We have obtained several very well known names - those of Garibaldi & Count Saffi being examples - & Mrs

Butler, confident that you will endorse these sentiments, ventures to place your name with these.

She desires me to thank you very much for your touching letter; & will be very glad to hear frequently from you.

Remain
Dear Sir
Yours respectfully
Wm G Bowden

Wm Lloyd Garrison Esq
